Terms of Service

I have read and agree to the [Google Cloud Platform Free Trial Terms of Service](#).

Required to continue

Access to all Cloud Platform Products

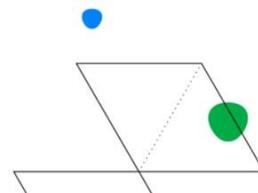

Get everything you need to build and run your apps, websites and services, including Firebase and the Google Maps API.

\$300 credit for free

Put Google Cloud to work with \$300 in credit to spend over the next 90 days.

No autocharge after free trial ends

We ask you for your credit card to make sure you are not a robot. You won't be charged unless you manually upgrade to a paid account.

Step 9: If your account is not associated with a phone number, google will request a phone number and will verify by sending OTP via SMS.

Step 10: Need to fill your Billing Information. After filling billing information, need to click "Start My Free Trial".

 Account type 

Business

Only Business accounts can have multiple users. You cannot change the account type after signing up. In some countries, this selection affects your tax options. [Learn more](#)

 Business name

Payment method

 Add credit or debit card 

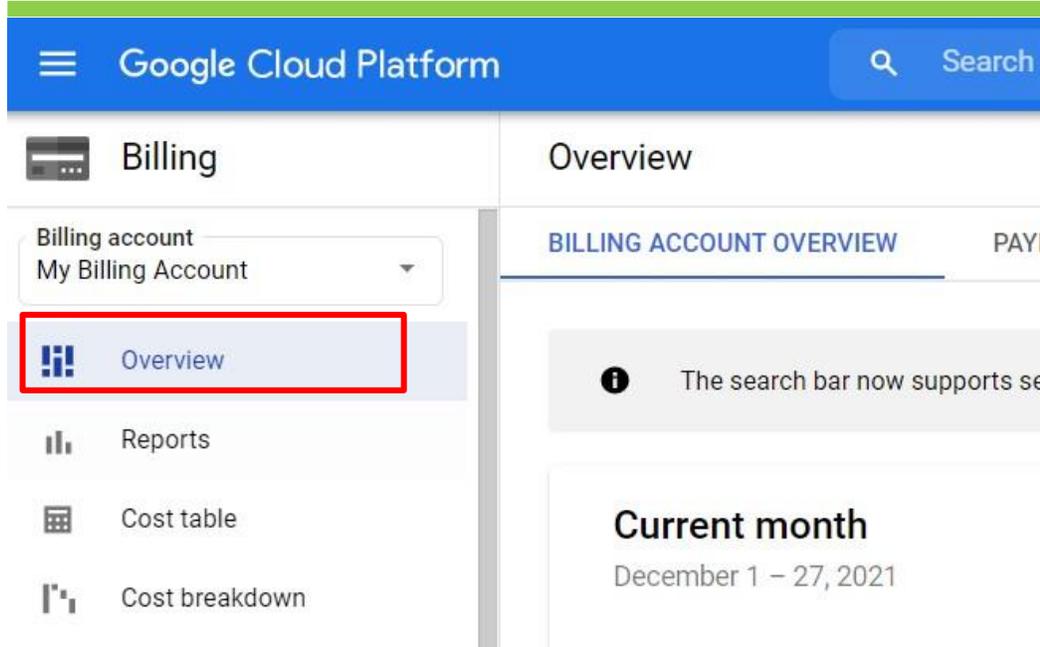

Card details

 Billing address

When billing starts, you'll be charged automatically, typically monthly.

[START MY FREE TRIAL](#)

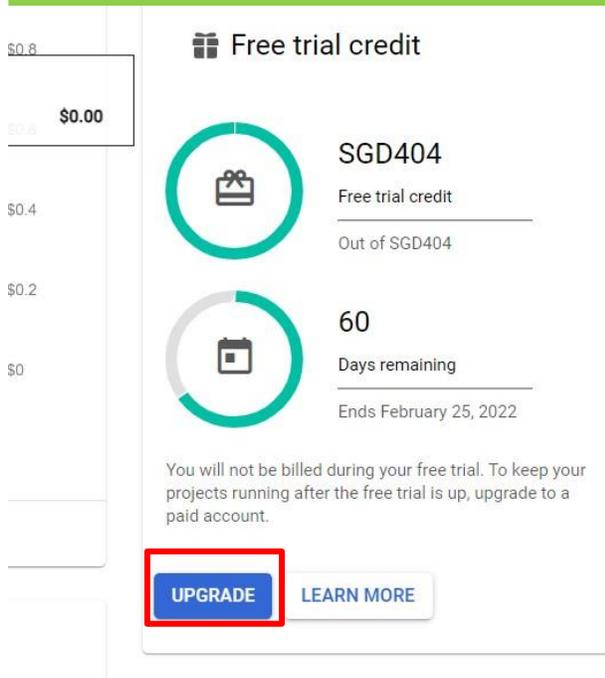

Step 11: Then you got the free Trial billing account. Need to click “Overview” menu.

Step 11: On the right side, you will see the upgrade button. You can upgrade your free trial account to standard payment account.

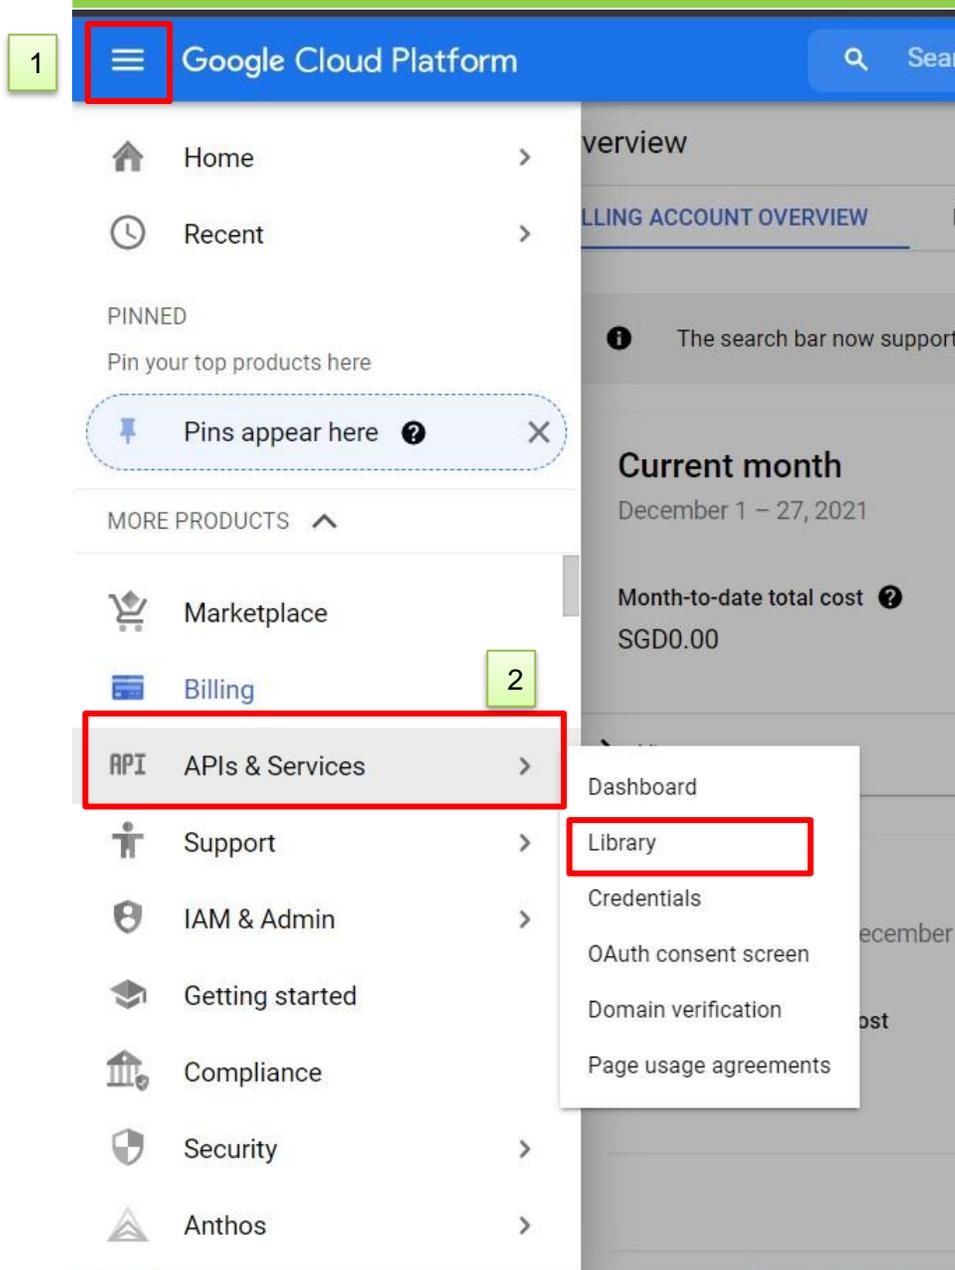

You can use free trial account for 90 days with \$300 credit.

https://cloud.google.com/free/docs/gcp-free-tier?_ga=2.180681511.-123698128.1640591929

The screenshot shows a dashboard for a free trial credit. On the left, a vertical axis represents credit amount, ranging from \$0 to \$0.8, with a current value of \$0.00. The main content area is titled "Free trial credit" and features two circular progress indicators. The first indicator shows a gift icon and is labeled "SGD404 Free trial credit Out of SGD404". The second indicator shows a calendar icon and is labeled "60 Days remaining Ends February 25, 2022". Below these indicators, a text block states: "You will not be billed during your free trial. To keep your projects running after the free trial is up, upgrade to a paid account." At the bottom, there are two buttons: "UPGRADE" (highlighted with a red box) and "LEARN MORE".

Step 13: Next Step is Enabling API and Services. Need to open “sidebar menu” and click “API and Services / Library”.

Step 14: Need to click “Map JavaScript API” and click “Enable” button.

[SUPPORT](#)

Step 15: Need to open “sidebar menu” and click “APIs & Services / Credentials”.

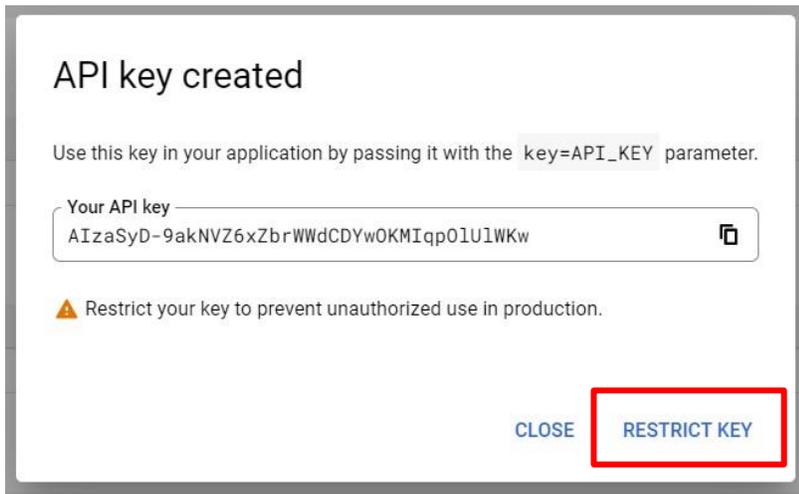

Step 16: Need to choose “API Key” to create new key for the project.

Step 17: You will get a generated API key.

Note: Currently, your APIs key is not secure for production. For the secure APIs key, you need to restrict your APIs key. Need to click “RESTRCT KEY”.

Step 18: You can change API Name if you want and choose HTTP referrers (web sites)

credentials list page

Name *
API key 1

Key restrictions

 This key is unrestricted. Restrictions help prevent unauthorized use and quota theft. [Learn more](#)

Application restrictions

An application restriction controls which websites, IP addresses, or applications can use your API key. You can set one application restriction per key.

- None
- HTTP referrers (web sites)
- IP addresses (web servers, cron jobs, etc.)
- Android apps
- iOS apps

Step 19: Under “Website Restriction section”, you can white-list the domain that you want to allow for this google map API. You will need to list all domain that you want to use.

Website restrictions

Restrict key usage requests to the specified websites.

 If left blank, your API key will accept requests from any website.

Referrer *
.starbucks.com/

CANCEL DONE

ADD AN ITEM

Step 20: Next step is to restrict the API key usage.

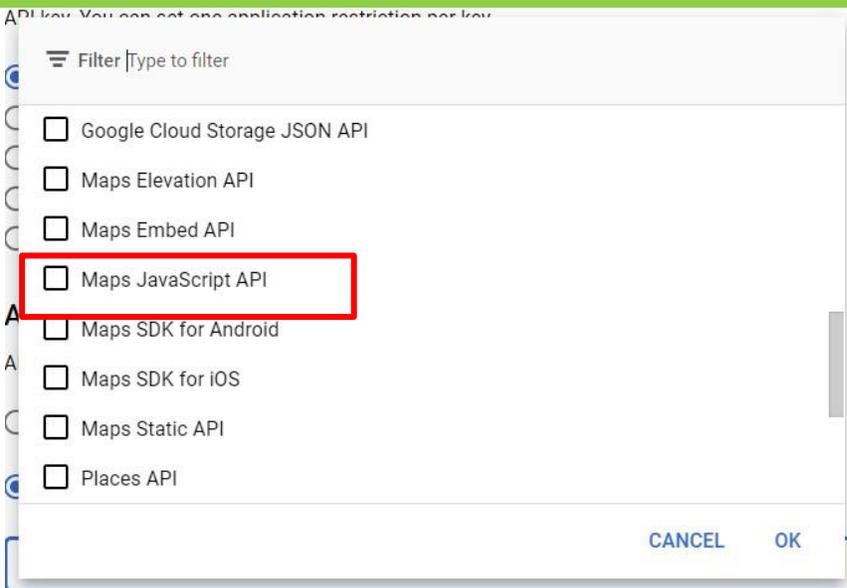

Need to choose “Restrict key”. Then, need to choose “Map JavaScript API”.

API restrictions

API restrictions specify the enabled APIs that this key can call

- Don't restrict key
This key can call any API
- Restrict key

Select APIs ▼

In this way you can get secure API key for your Google Map.
